Dear Friends!

We take this opportunity to express our sincere respect and gratitude to you for the consistent implementation and protection of the ideals and principles that are the common heritage of the peoples of free Europe.

Borodyanka territorial community of Bucha district of Kyiv region from the beginning of a large-scale invasion of russian troops and until April 2022 was in the zone of hostilities and occupation and was the first to suffer devastating air strikes on civilians and infrastructure.

The vast majority of multistoried residential buildings, a large number of private houses in the community were destroyed. Administrative buildings of the village council, local authorities and other institutions were critically damaged.

In extremely difficult conditions, the Borodyanka Village Council is taking all possible measures to resume the delivery of vital services to the residents of the community.

We express our sincere gratitude to:

Ms. Maryna Zamfir on the initiative of request for the necessary aid to the Borodyanka community;

The Editorial Board of VareseNews, which published a request to help Borodyanka with laptops and for the effectiveness of this publication;

Mr. Alberto Mandelli, who immediately donated laptops;
an Italian private company that donated laptops and accessories.

In the conditions of complete destruction of critical infrastructure, your help is a very valuable contribution that will help restore the livelihood of Borodyanka village territorial community.

With deep respect,

Acting Head of Village Council

Heorhiy YERKO
