Davide Astori, the Fiorentina captain, has died unexpectedly

Pubblicato: Mercoledì 7 Marzo 2018

Davide Astori, 31, the captain of Fiorentina, was found dead in his hotel room in Udine, where he was with his team, for a match today, against Udinese.

The defender probably died in his sleep, maybe of cardiac arrest.

The Series A and B championships have decided to suspend all of today's matches.

Astori, a native of Bergamo, played in the national team and, before becoming the captain of Fiorentina, had also played for Milan.
