

## From design to charity, a new life for the Glass Emotion Bridge

**Pubblicato:** Giovedì 3 Maggio 2018

From design to charity: the **Glass Emotion Bridge in Piazza Podestà**, the installation that characterised Varese's Design Week, has today found a new role.

The "suspended" walkway, which was conceived by **Roberto Torsellini**, will stay up until 13 May, to allow the collection of funds for four Varese-based charities.

A box has been placed at the entrance to collect donations, which will go to the **non-profit organisation "Il Circolo della Bontà"**, which supports the six hospitals under the "Sette Laghi" health authority, the **Giacomo Ascoli Foundation**, which cares for children affected by onco-haematological diseases, the **association ON**, which seeks to create an innovative model for managing the "Cinque Vette" Park, and the Mobile Emergency Unit of **Varese's Civil Defence Squad**.
