

Varesenews launches your summer camp 2019

Pubblicato: Giovedì 21 Marzo 2019

Are you organising summer camps for children and young people? Holidays in the midst of nature, thematic sports or language camps? The **“Special Summer Camp 2019”** of VareseNews is the place for you.

The **formula is simple** and offers **great visibility**: to involve all the organizations, the associations, groups and individuals who organize activities for children and young people, giving them a space to promote their program through the pages of a **newspaper that has been accompanying the everyday life of Varese people for over 20 years.**

The final goal is **to offer families a space where they can get informed** in order to decide on how they want their children to spend their summer days, allowing them to spend quality time, while learning and socializing with their peers.

In 2017 we started for the first time the experience of the **“Special Summer Camps”**, which aroused great interest among our readers, arriving to be visited by an average of **more than 15,000 people per week**, shared on **Facebook** hundreds of times and strengthened by posts and photo galleries published on Facebook about each summer camp.

We repeated the same thing in **2018** and once again there were **many organisations that got involved and became our partners:**
