The lakeside promenade is being extended

Pubblicato: Lunedì 2 Marzo 2020

Work is beginning on the lakeshore in Angera, to build new **pedestrian and cycle paths to connect Piazzale Volta to the tennis court area in Viale Ungheria**. The area (in front of the public gardens), has been cordoned off, to allow the planned work to start in the next few days.

“That area, which is now inaccessible, **will become completely usable**, and will connect up with a cycle path that will go from Via Campaccino, near the main road, Via Milano, to the pier,” Mayor **Alessandro Molgora** explained.

The work is part of a broader project that seeks to promote soft mobility in the town. “The hope for the future,” the Mayor concluded, “is to be able to create a cycle/pedestrian link between Ispra and Laveno, along the lake.”
